KLIPPANS BRUK
PAPERMAKING SINCE 1573

We have given a donation to help children affected by the coronavirus pandemic.

Millions of children around the world have been hit hard by the coronavirus pandemic. Nutritional programs have closed, there is limited access to healthcare, and many have not received the important vaccines they need to be protected from other diseases like measles and polio. UNICEF is helping to prevent the spread of covid-19 and protect affected children and families.

Thanks to this gift more children will be protected and lives will be saved.
