KLIPPANS BRUK
PAPERMAKING SINCE 1573

Full steam ahead for Scandinavia's oldest paper mill

Klippans Bruk has been producing paper in the same place since 1632, although the company's roots go as far back as 1573. For almost 450 years, our business has been characterised by innovation, expertise and great flexibility – which still applies today! We have a strong and mutual relationship with our local community. Loyal, well-skilled employees have always been one of the reasons for our success, and the mill has sustained many generations. Today, Klippans Bruk is a modern, specialist paper mill that is entirely devoted to manufacturing tissue paper. Our annual production capacity exceeds 40.000 tonnes.

Swedish tissue conquers the world

Ten years ago, we made the decision to focus on what we do best: the production of high-quality white and deep-colored tissue paper.

We then sell this tissue paper to experts all around the world, who convert it into serviettes and medical products.

Production calendar

We produce tissue paper in different color scales every week. Our production calendar enables you to easily see during which week we produce the colors you are interested in. We operate a four-weekly planning cycle, which means that all shades are produced within the space of one month.

Certificates

Certification ensures that the production process complies with uniform standards thus making the final product eligible for safe international trade. It is not until a manufacturer meets needed standards and fulfills all the prerequisites that a certificate can be issued.

We place big emphasis on responsible management of resources, safety regulations and environmental responsibility.

ISEGA
Certificate of compliance.

FSC
FSC promotes responsible management of the world's forest.

EU Ecolabel
EU Ecolabel is a voluntary label that promotes environmental excellence.

PEFC
PEFC is the world's largest forest certification system.

ISO 9001:2015
Certification that indicates implementation of quality management system, which guarantees efficiency and customer satisfaction.

ISO 14001:2015
Certification that assures environmental impact of our production is both monitored and well-managed.
