KLIPPANS BRUK
PAPERMAKING SINCE 1573

Strong dynamics for Scandinavia's oldest paper mill

Klippans Bruk has been producing paper in the same place since 1632, although the company's roots go as far back as 1573. For 450 years, our business has been characterised by innovation, expertise and great flexibility – which still applies today! We have a strong and mutual relationship with our local community. Loyal, well-skilled employees have always been one of the reasons for our success, and the mill has sustained many generations. Today, Klippans Bruk is a modern, specialist paper mill that is entirely devoted to manufacturing tissue paper.

Swedish tissue conquers the world

15 years ago, we made the decision to focus on what we do best: the production of highquality white and deep-colored tissue paper. We then sell this tissue paper to experts all around the world, who convert it into serviettes and medical products.

Production calendar

We produce tissue paper in different color scales every week. Our production calendar enables you to easily see during which week we produce the colors you are interested in. We operate a four-weekly planning cycle, which means that all shades are produced within the space of one month.

Certificates

Certification ensures that the production process complies with uniform standards thus making the final product eligible for safe international trade. It is not until a manufacturer meets needed standards and fulfills all the prerequisites that a certificate can be issued.

We place big emphasis on responsible management of resources, safety regulations and environmental responsibility.

ISEGA
Certificate of compliance.
Food contact.

The mark of responsible forestry

FSC
Helps take care of forests for future generations.
On request.

EU Ecolabel
EU Ecolabel is a voluntary label that promotes environmental excellence.
On request.

Nordic Swan
The Nordic Swan or "Svanen", official ecolabel of the Nordics.
On request.

ISO 9001:2015
Certification that indicates implementation of quality management system, which guarantees efficiency and customer satisfaction.

ISO 14001:2015
Certification that assures environmental impact of our production is both monitored and well-managed.

Klippan was first in Scandinavia!
In 1832 the first papermachine was installed. It was in production until the 1980's. We keep investing and in 2019 we installed our latest papermachine, no 11.

One of the mills previous owners, Mr Sunnerdahl, set means for the education of the millworker's children. A school was built and a fond was set up and children can still today apply for scholarships for education.

The mill was very much involved when the railway came. The mill owner gave his permission to use the name "Klippan", provided there was a station building made of bricks from his factory and a track down to the mill.

The mill dates to 1573 and a papermill further upstream. In 1632 the mill moved to the current location. The oldest remaining is from the 1700's. The mill eventually gave name to the town, Klippan.
